You need 1 shuttle.

Leave about a 20cm tail for (finger) tating the chains when beginning the first ring.

IR : interlocking ring

R : ring

Ch : chain

- : picot

+ : join

IR A: 3 - 18

IR B: 28 - 3

Ch C: 4

IR D: 3 + 28

IR E: 18 - 3

Ch F: 3

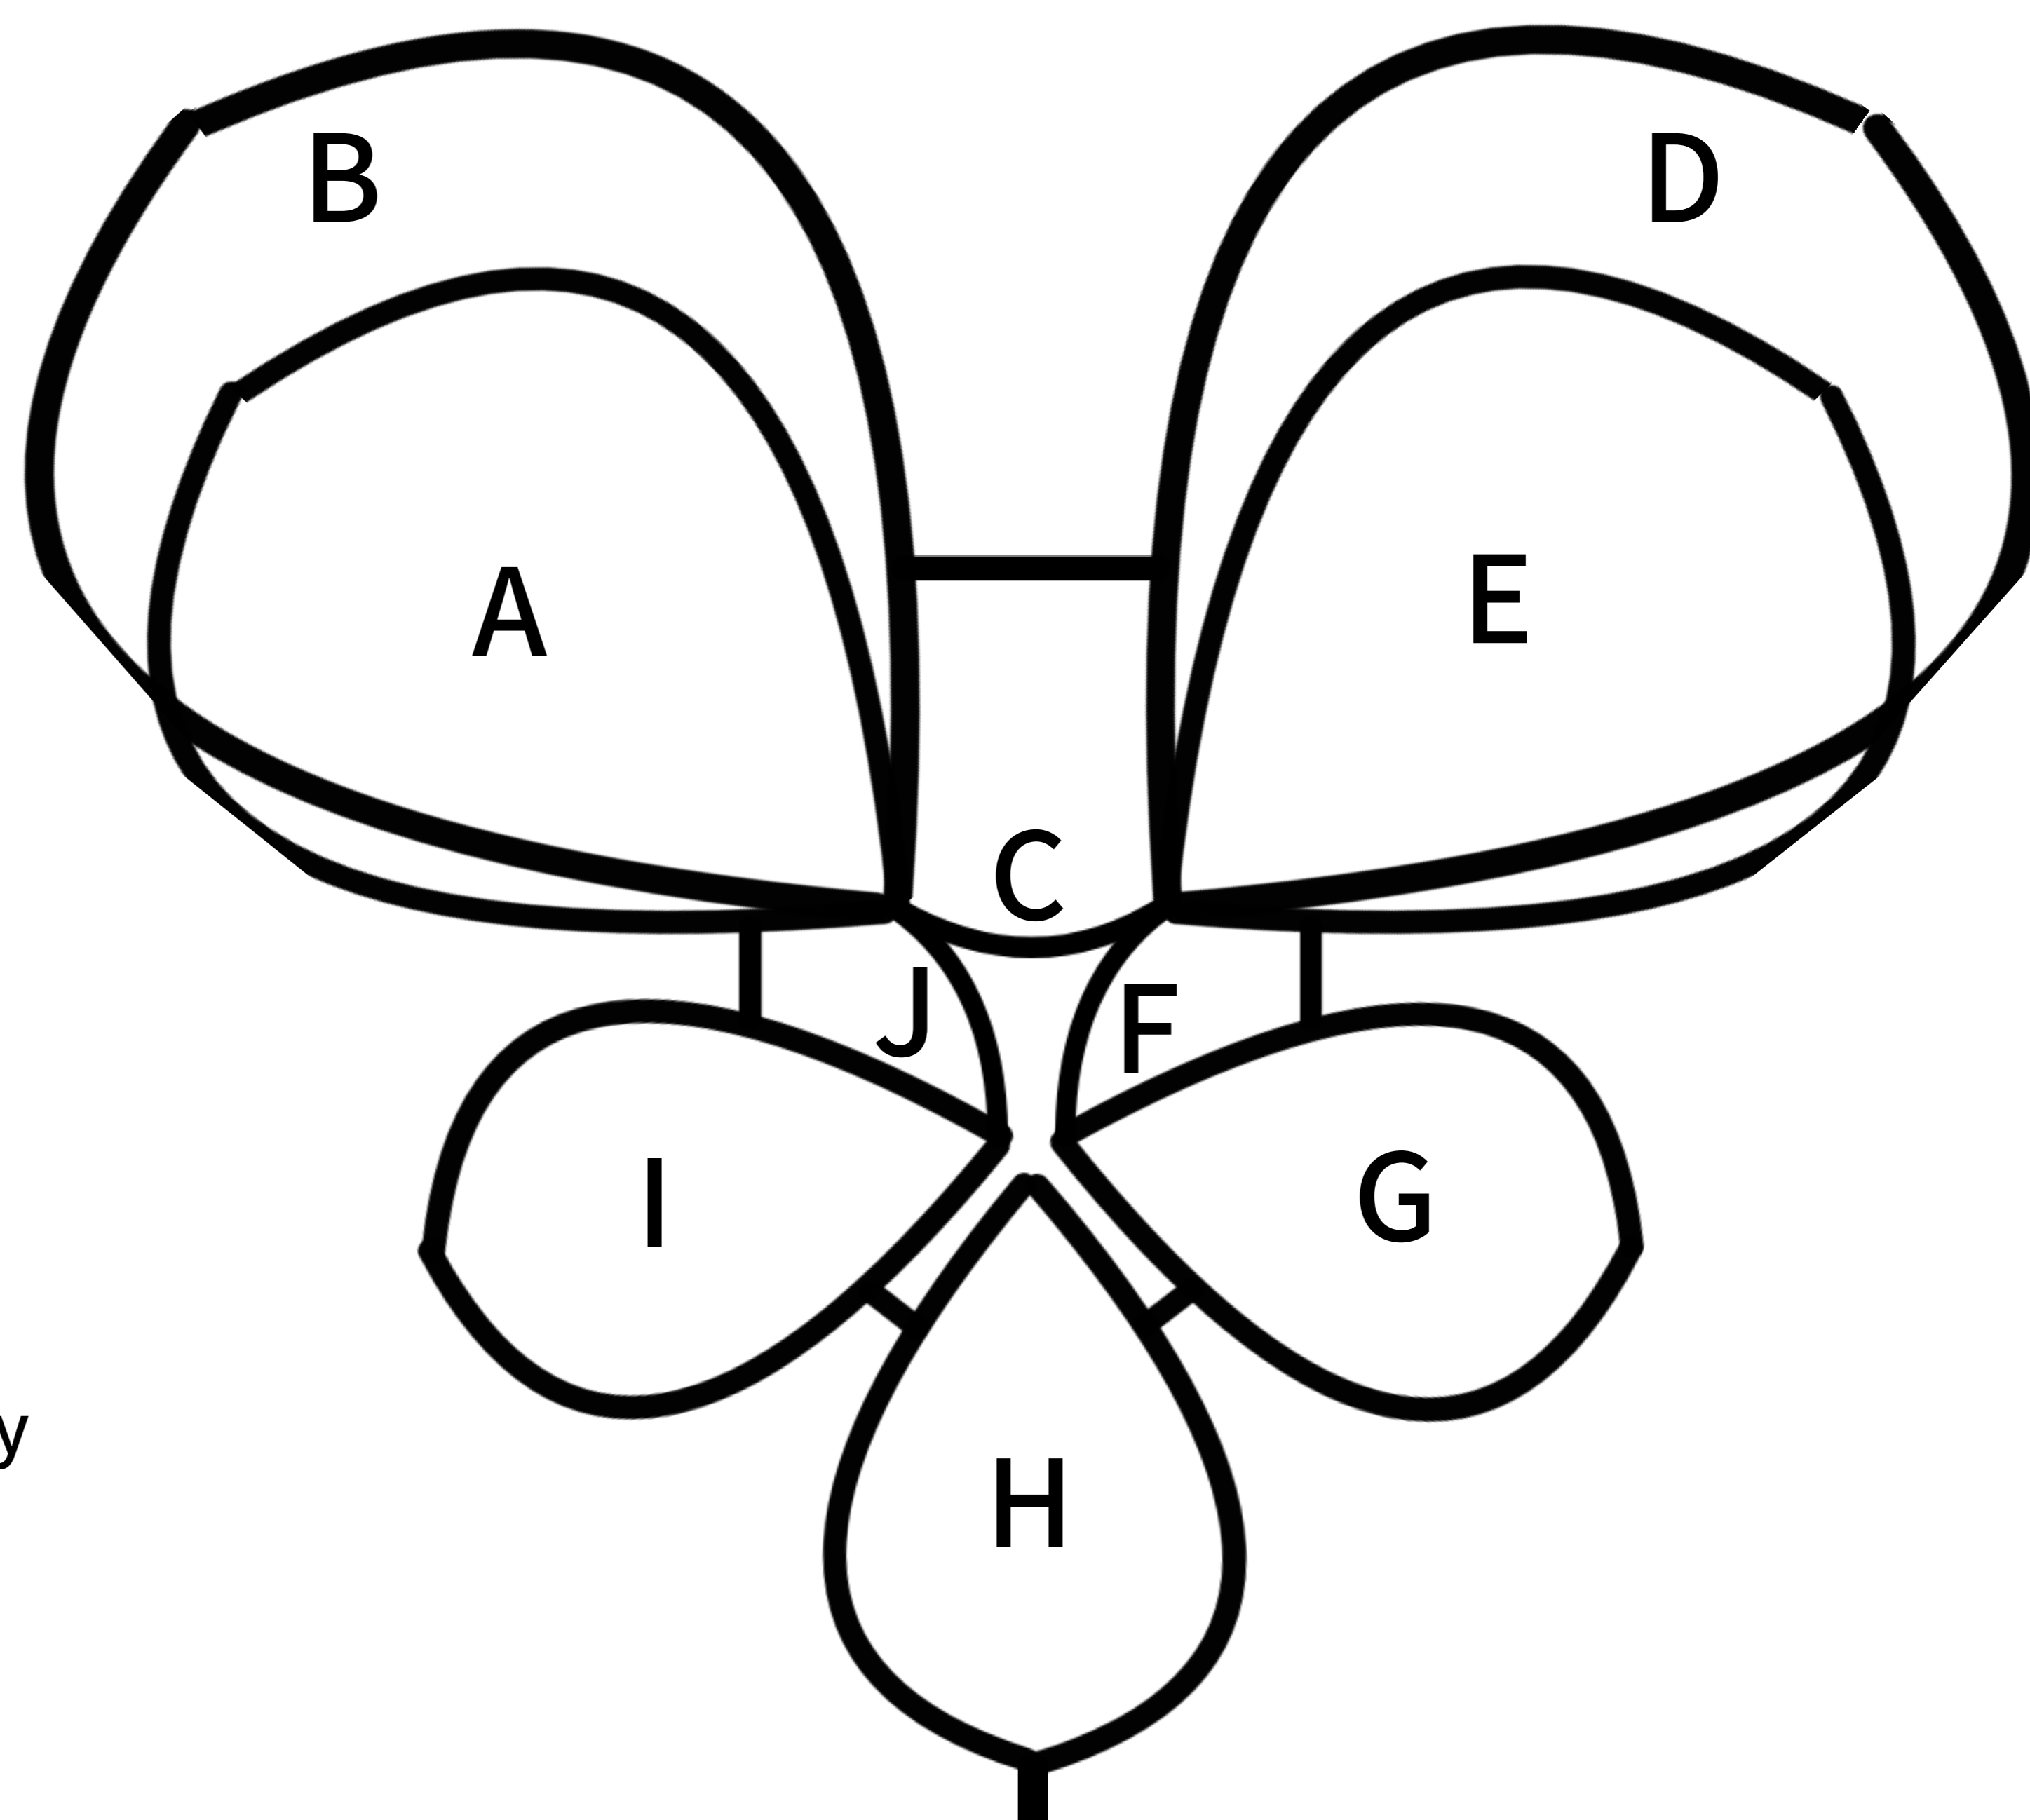

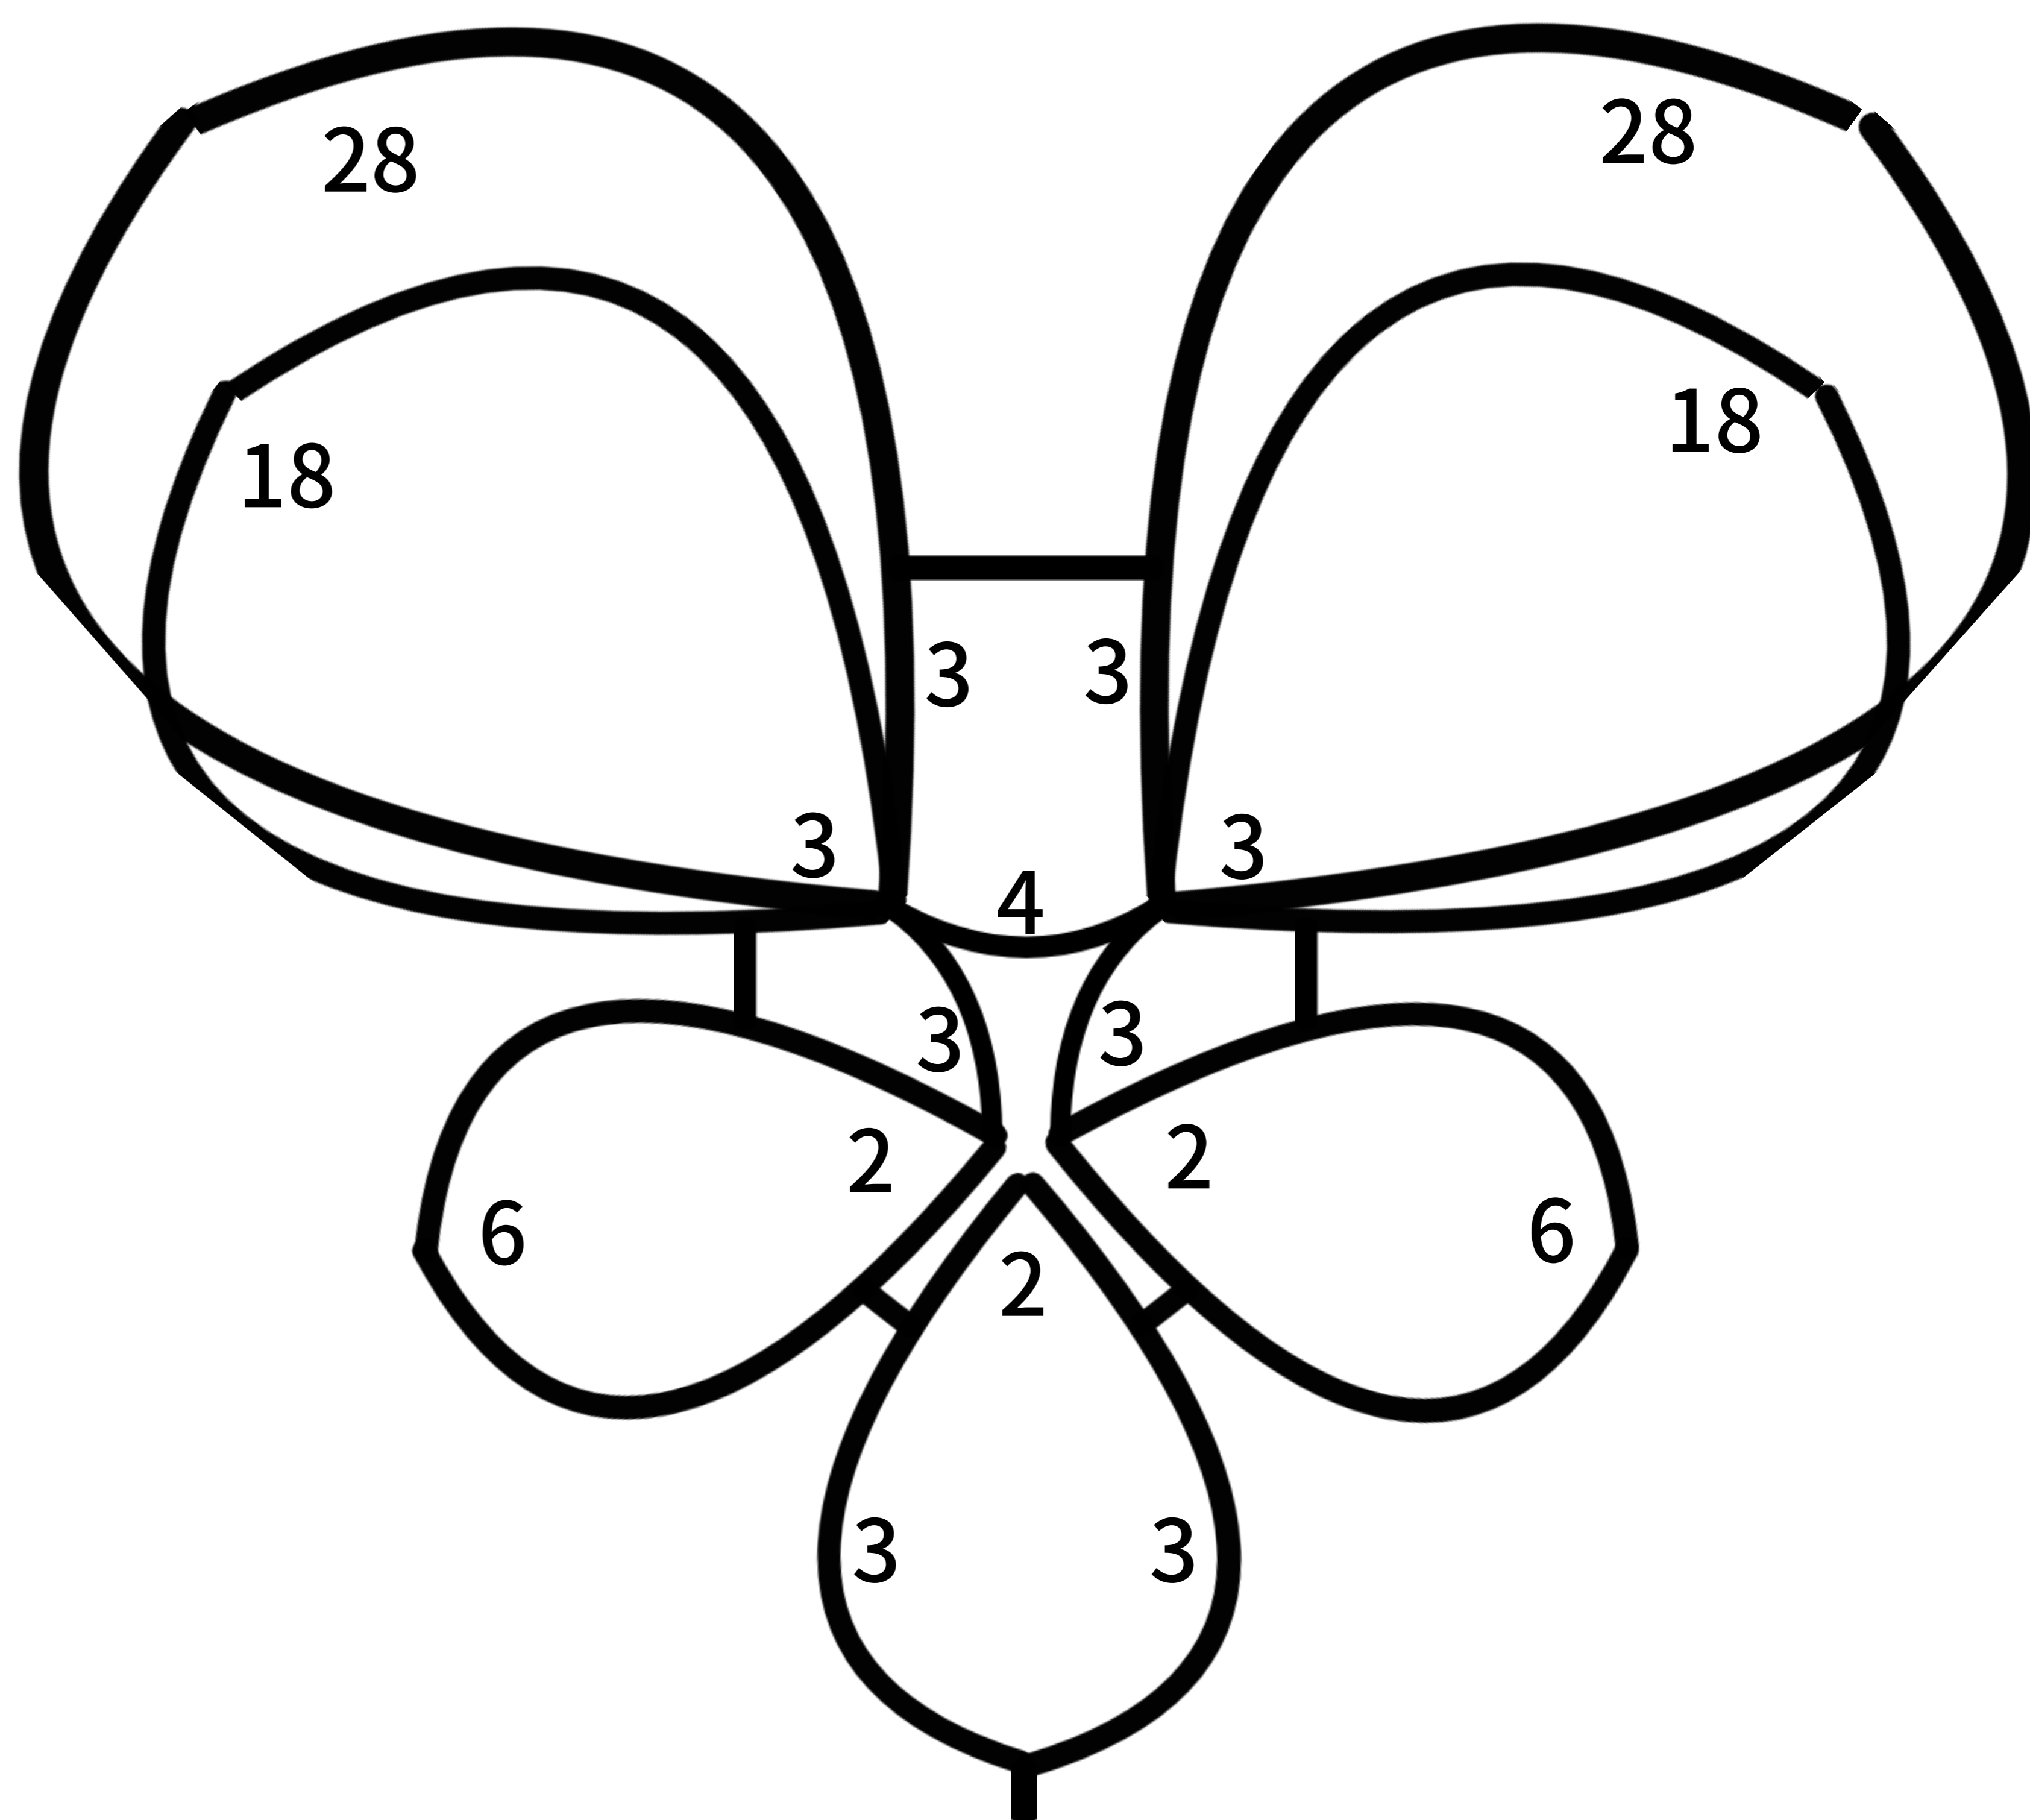

R G: 2 + 6 - 2

R H: 2 + 3 - 3 - 2

R I: 2 + 6 + 2

Ch J: 3

Note: For the second pair of interlocking rings, pass the shuttle through the first ring in the opposite direction of the first pair, so it makes a mirror image.
